Britain and the Experience of Relative Decline, 1895-1905 Book Dr. Friedberg is the author of three books including The Weary Titan: Britain and the Experience of Relative Decline, 1895-1905 and In the Shadow of the

The Weary Titan provide[s] us with the cautionary message that 'national security' in the proper sense of the term involves much more than military security."---Paul Kennedy, *New York Review of Books*. "[Friedberg's] central conclusion is compelling: when measuring power, perceptions matter. . . .Â The argument that the United States is on the precipice of dramatic and strategically painful relative decline has come in and out of fashion many times over the past half century. The aggressive expansion of the communist bloc in the 1950s, the domestic upheaval and Vietnam War in the 1960s, Watergate and the oil shock in the 1970s, and economic competition from Japan and the Asian tigers in the 1980s all seemed to signal the twilight of American global dominance.
