The object here is less to draw out the subtle distinctions and potential points of conflict between Dewey, Popper, and Rescher, than to highlight some of the ways in which the collective impact of their work contributes toward the shaping of a postpositivist temper.

Designing critical literacy education through critical discourse analysis: Pedagogical and research tools for teacher researchers. Jan 2014. R Rogers. M M Wetzel. Why is it essential that English teachers acknowledge youth literacy practices in out-of-school contexts? How will an engagement of youth as media producers lead to academic literacy development? And why should the popular cultural practices of young people be incorporated into secondary English classrooms? This article asks these questions and more as it considers the applications of a critical pedagogy of urban English education that acknowledges and honors nonschool literacy practices and promotes literacy as a tool for academic development, cultural production, and social change. Uniquely bringing together discourse analysis, critical literacy, and teacher research, this book invites teacher educators, literacy researchers, and discourse analysts to consider how discourse analysis can be used to foster critical literacy education. It is both a guide for conducting critical discourse analysis and a look at how the authors, alongside their teacher education students, used the tools of discourse analysis to inquire into, critique, and design critical literacy practices.
