Free Download Manager is a download manager for Windows and macOS. FDM was initially proprietary software, but was free and open-source software between versions 2.5 and 3.9.7. Starting with version 3.0.852 (15 April 2010), the source code was made available in the project's Subversion repository instead of being included with the binary package. This continued until versions 3.9.7. The source code for version 5.0 and newer is not available and the GNU General Public License agreement has been removed
