Such a "political" economy has had both positive and negative outcomes, which we will assess in detail. We also look at the origins, views, backgrounds and relations among leaders, and how those leaders make decisions about public policy and try to get those decisions implemented down through the system. China has few formal institutions through which citizens can participate in politics, but we will study the strategies Chinese people use to try to influence their leaders' decisions. [MUSIC] Hi, this week we're going to talk about the policy process in Chinese politics. What is the policy process?
