Book collecting is the collecting of books, including seeking, locating, acquiring, organizing, cataloging, displaying, storing, and maintaining whatever books are of interest to a given collector. The love of books is bibliophilia, and someone who loves to read, admire, and collect books is called a bibliophile. Book collecting can be easy and inexpensive: there are millions of new and used books, and thousands of bookstores, including online booksellers such as Abebooks, Alibris, Amazon, and Biblio

I've been using Collectorz Book Collector for many years now, first on the Windows platform and then iOS as soon as the app was available. It's very easy to add and edit on either platform (but using the app to scan barcodes is the easiest IMHO) and even easier to sync between them. This app has kept me from buying tons of duplicate books for my daughter (since I don't read hers it's difficult to remember all the ones she has). Technical support is also top notch. This is a must-have for those who have hundreds of books in their home library like me. I really appreciate that when the app shifted to a subscription-based app, early adopters like me who paid for the app still receive updates for the app.
