Welcome to the Clinical Neuropsychology Working Group. of the University Medical Center Hamburg-Eppendorf. [Click to enlarge.](#) We conduct clinical research utilizing established neuropsychological tasks and questionnaires, as well as self-developed experimental cognitive paradigms. We are also at the forefront of online research methods and have recently conducted several studies on online psychological treatments. Our current research projects are described in more detail on this website (see the Research tab above). [2nd International Conference on Clinical and Experimental Neuropsychology. September 07-08, 2020 Prague, Czech Republic.](#) Experimental Neuropsychology is an approach that uses methods from Experimental psychology to uncover the relationship between the nervous system and cognitive function. The majority of work involves studying healthy humans in a laboratory setting, although a minority of researchers may conduct animal experiments.
