Why this matters About the campaign. Logotherapy was developed by Austrian neurologist and psychiatrist Viktor Frankl and focuses on individuals' search for meaning. After his experience in the camps, he developed a theory that it is through a search for meaning and purpose in life that individuals can endure hardship and suffering. A Brief History of Viktor Frankl. "Logos" is the Greek word for meaning, and logotherapy involves helping a patient find personal meaning in life. Frankl provided a brief overview of the theory in "Man's Search for Meaning." Logotherapy in Practice. Frankl believed that it was possible to turn suffering into achievement and accomplishment. He viewed guilt as an opportunity to change oneself for the better, and life transitions as the chance to take responsible action. Meaning in suffering: Comfort in crisis through logotherapy.
