Eat, Drink and Be Merry: America's Doctor Tells You Why the Health Experts Are Wrong by Dean Edell, M.D. Dr. Edell's Ideas about American Medicine Are Refreshingly Unorthodox. While it is unthinkable to the majority of Americans to allow people who want to alter their consciousness to get the drugs they want, most of the same individuals see nothing wrong with putting children on one of the same drugs sold to addicts on street corners. Edell questions whether children diagnosed with attention deficit disorder are simply too creative and intelligent to sit quietly for long periods of time and criticizes the widespread use of Ritalin to calm them down. Americans enjoy better health today than at any other time in history. Yet we seem to worry more about health now than ever before.
