To reduce its impact on our environment, the chipboard used in this puzzle is made of recycled wood. Paulina Dewoody. Maps aren't as immediately exciting as a good story, which is why we tend to overlook them when trying to understand our present. We'd like to change that. Without further ado, here are thirty-three fascinating maps that explain the United States. The legacy of conquest and opportunity-seeking can be found in our blood--and on our maps. African and African American ancestry is most common in the once slave-holding South, just as Mexican heritage in Texas transcends annexation and war. 10 of 34.

The maps helped me understand how five brothers migrating from New England ultimately ended up in five different places as trails diverged and conditions changed. This is now an essential in my research library. [Read more.](#) Beyond the books, it shows a weakness in how the settlement process is taught as a survey. The post Trans-Mississippi period is presented in isolation and that is simply not how it unfolded. So the revisionists in their rush to crush the frontier idea lost much of the background that explains the how and the why. You may not be a Turnerian, but the pioneers certainly were. When they crossed the Missouri they worked within a 250 year old framework of knowledge and despite what St Webb wrote, much of it still applied. Most didn't own, nor did they need, a Colt 45.
