Preview "Monsters by George M. Eberhart. Monsters: Including Bigfoot, Many Water Monsters, and Other Irregular Animals. by. George M. Eberhart. Bibliography to "...monsters which apparently are or were living animals uncaught and uncataloged Note: ISBN is 0-8240-9213-9. There is another listing for that ISBN which may be the same book. After repeated attempts to add this as another edition (the publisher is different), I have opted to enter it as a new book. I'd appreciate help on merging the two listings in some way. Bibliography to "...monsters which apparently are or were living animals uncaught and uncataloged by scientists." Contents Types of Sasquatch include Bigfoot, and the Yeti. Satyr :Half-men, half-goats who were wild, lustful, and all around fun. The god Pan was one of these. Vampire: Probably one of the most famous of monsters. The undead human like creature that drinks the blood of the living. Wendigo/ Windigo (Algonquian folklore) : A monster or spirit that is associated with Cannibalism, murder, and greed. They are often seen as either Humans turned into monsters by their sins, or humans that are possessed by evil spirits. Animal and beast like monsters: Airavata (Hindu Mythology) : The Mythical white elephant that carries the Hindu God Indra. It is said to be spotless white, have five trunks and ten tusks.

In Scottish folklore, the Loch Ness Monster or Nessie is said to be a creature that inhabits Loch Ness in the Scottish Highlands. It is often described as large in size with a long neck and one or more humps protruding from the water. Popular interest and belief in the creature have varied since it was brought to worldwide attention in 1933. Evidence of its existence is anecdotal, with a few disputed photographs and sonar readings.

Along with legends of grotesque monsters and sea creatures, ancient and medieval travelers often returned to Europe with tales of so-called "wild men" living in the unmapped regions of Asia and Africa. One of the most unusual groups was the Blemmyae, a race of hairy primitives who lacked heads but had a face situated in their upper body. The tribe first appeared in Herodotus's "The Histories," where they were described as a species of "headless men" from North Africa "who have their eyes in their chests." Other famous "wild men" included the Sciopodes, who had a single leg with a foot so large it could double as a parasol; the cannibalistic Anthropophagi; and the Cynocephali, a race of creatures with the bodies of men and the heads of dogs. 6.
