A Treatise on the Mathematical Theory of Elasticity, by Augustus Edward Hough Love, is a classic two volume text, each separately published in the years 1892 and 1893 respectively. The second edition, published in 1906, is a fundamental rewrite of the entire previous two volume set. The following quotes are from the second edition, unless otherwise noted. The present treatise is the outcome of a suggestion made to me some years ago by Mr R. R. Webb that I should assist him in the preparation of a work
