Additionally, Northern Renaissance artists also applied this newfound appreciation for realism to portraiture, as evident in Jan van Eyck's well-known piece, The Arnolfini Portrait. In addition to its secular subjects, this painting is celebrated for its dimensionality, tonal achievement, and meticulous detail which each adds an aspect of realism to the scene. Oil Painting Techniques. With Van Eyck at the forefront, northern artists also began to experiment with new methods of painting. During the Middle Ages, most artists used tempera paint, a medium made of egg yolk mixed with pigment. This type of paint was not ideal for Renaissance artists, however, as its quick-drying nature did not allow them to achieve a great deal of tone, texture, or detail. Northern Renaissance Art book.
