Human caring and suffering: a subjective model for health sciences. In, *They Shall Not Hurt: Human Suffering and Human Caring*, ed. by R. Taylor and J. Watson, Colorado Associated University Press. Google Scholar. 9. Taylor, R. and Watson, J. (1989). *They Shall Not Hurt: Human Suffering and Human Caring*, Colorado Associated University Press. Google Scholar. 10. Reed, J. (1994). As a research scientist at Google, Margaret Mitchell helps develop computers that can communicate about what they see and understand. She tells a cautionary tale about the gaps, blind spots and biases we subconsciously encode into AI "and asks us to consider what the technology we create today will mean for tomorrow. "All that we see now is a snapshot in the evolution of artificial intelligence," Mitchell says. "If we want AI to evolve in a way that helps humans, then we need to define the goals and strategies that enable that path now." . *They shall not hurt: human suffering and human caring*.
