Military Intelligence, 1870-1991: A Research Guide

Jonathan M House

When a Chinese Special Forces group targets Angel-12, an American intelligence satellite containing top secret intelligence technology, the ensuing 22,000-mile freefall lands the bus-sized device somewhere in remote Siberia. Not far away, a Russian shadow government has captured the team of U.S. airmen sent to find it. This thesis uses three distinct research methodologies that collectively lead to an effective strategy for intelligence and terrorism information sharing within a private passenger railroad, and with its external public partners (Chapter III): 1.
