PART - A

The Plan of Action chalked out by the IQAC in the beginning of the year towards Quality enhancement and the outcome by the end of the year

1. Implementation of the grading and semester systems

At the academic level, the prime importance was given to the effective change over from yearly system to semester system. A co-ordinator, Sri. Savio James, was appointed to see to it that all the academic programmes were rescheduled to suit the semester system. We already have had preparations in this regard by conducting seminars and workshops.

2. Seminars and Workshops for staff and students

It was decided to conduct seminars and workshops at college level and department level. As a part of the departmental activities, each department has decided to organize seminars in the college, ensure maximum participation of students and teachers in the curriculum based seminars organized by other institutions.

3. Seminars and Workshops for School Teachers

As a part of making the resources of the college available to other educational institutions in the vicinity, the college plans to organize workshops and faculty improvement programmes for school teachers, in their respective disciplines. It is the policy of the college to make its resources available to other educational institutions.

4. Academic training and leadership programmes for school children

As it has been the practice, this year also, the college plans to arrange different programmes for pupils of the neighbouring schools especially with a view to orienting them for Higher Education.

5. Mentoring System, College Election and PTA

Mentoring system has been effectively functioning in the college. We have effectively clubbed mentoring system with the college election process. The college has ensured a peaceful college election through the implementation of parliamentary mode of election, in pursuance of the recommendation of the Lingdoh commission report. Accordingly, each

class is to elect two representatives (one male and one female to ensure gender equality) under the supervision of the Mentor concerned and these representatives elect the office bearers of the college union, and remain to be the executive body of the college union. The class PTA also elects one representative for the class and such elected members shall constitute the executive body of PTA. Thus the college visualizes effective functioning at all levels with Principal at the top, then Department Heads, Mentors for each class, Parent Representative and Class representatives forming a system of responsibility and accountability.

6. Research Orientation

The college proposes to take initiatives to raise all Departments to research centres. This includes applying for research centres, the PhD holders applying for guideship, the part time research scholars applying for FIP for completing their PhD in a time-bound manner and the research guides guiding maximum number of scholars.

7. Career Guidance and Placement Cell

The Career Guidance and Placement Cell, with UGC assistance plans to conduct year long coaching programme for students for entry into services. Various programmes including Campus interviews and interfaces under the name Placement Drive is entrusted to the Cell.

8. Assessment and Evaluation

As the semester and grading system is implemented to the first year students this year, it was decided to hold mid-semester exams at college level and test papers for continuous assessment at department level. Apart from class tests and assignments given to the students as part of continuous evaluation, this year also it is decided to conduct mid year examinations for senior students. Various classes and coaching programmes are planned for both students and teachers regarding the mode of examination.

9. Course in Communicative English

As our students lag behind in communicative competency in English we started a Certificate Course in Communicative English with practical sessions in the language lab two years back. As two batches of students have successfully completed this course, and as it is found to be equipping the students with better communication skills, the Department of English continues to offer this course open for all students.

10. Counselling for the students

Though a counselling cell has been functioning in the college the need for a more effective and professional approach was felt by the college and a full-time counsellor was appointed for the students, with the financial support of the Management. This year also we propose to appoint a full time counsellor for the student community.

11. Infrastructure

The college applied for UGC assistance for constructing Women's Hostel and class room building and got it sanctioned. The Management is keen on developing the infrastructure facilities step by step availing all possible resources from various agencies. The paper works are over and the construction work is to be started immediately.

12. Library

The college library, at present is having around 10000 volumes and 45 journals. The college plans to add at least 2000 more books and a few more journals to the library.

13. ICT enabled teaching and learning

The faculty as well as students has been using audio-visual lab for classes and seminar presentation. All the departments plan to make it a regular practice.

14. Enhancement of Computer facility

This year the College plans to update a Local Area Network (LAN) connecting all Departments, the Administration office, the Principal's office and the Library. Free of cost internet facilities to be enhanced by increasing the number of systems.

15. Computerization of Language Lab

The Language lab set up as a part of functional English Course in the college was first of its kind among the colleges in the Kannur University. The college computerized 10 cabins last year. The computerization of the lab is to be continued.

16. Remedial Teaching

As the remedial teaching found to be effective, it is decided to continue with it giving special attention to slow learners and students belonging to SC/ST sections.

17. Subscription to English Newspapers

As subscription to English newspapers is found to be one of the healthy practices in imparting general knowledge as well as the language skills, the college plans to supply at least 4 copies of English Newspaper to each class. Further, large number of individual subscription is also to be promoted.

18. Financial/material support to the deserving students

The college plans to procure maximum amount of money from governmental and nongovernmental agencies so that financially backward students can be assisted. This has been one of the healthy practices of the college from the beginning.

19. U.G.C. assistance

The college has made it a policy to avail all the funds the college is eligible for so that maximum facilities for higher education may be provided in this rural/backward area.

20. The college canteen

The canteen facilities have been made student friendly and the college proposes to continue the same.

2. NEW ACADEMIC PROGRAMMES INITIATED:

There is an overhauling of all academic programmes existing in the college in connection with the introduction of Choice Based Credit and Semester system. Thus the general/language courses are redefined as Common Courses, main courses as Core Courses and subsidiaries as Complementary Courses – all with substantial changes in the syllabi.

Proposals for the sanction of new post graduate courses in Computer Science, English, and Commerce are submitted to Kannur University. Proposal also submitted to the University for the elevation of Department of English as a Research Centre.

3. INNOVATIONS IN CURRICULAR DESIGN AND TRANSACTION:

The Kerala State Higher Education Council has recommended the restructuring of the existing Under Graduate System by introducing Semester System, choice based course-credit system, continuous assessment and grading. Accordingly, Kannur University has implemented the new system this academic year onwards. As a preparation for the restructuring and designing of the curriculum all the Board of Studies in the University conducted five to ten day workshops in different phases. All the regular teachers of the college participated in the workshops conducted by the Board of Studies concerned and have made significant contributions. Some of our Department was given independent charge of designing curriculum and their work was commended by the Board of Studies.

It was for the first time the University has taken the radical step of taking opinions, suggestions and recommendations of all the teachers in curriculum designing and our teachers have done commendable work in designing the new curriculum of the University.

At the college level also we had the opportunity of designing curriculum especially for communicative English course, Coaching for entry into services and for remedial coaching.

4. INTER-DISCIPLINARY PROGRAMS STARTED:

Even though no formal inter-disciplinary programme has been initiated the restructured syllabi offer much scope for inter disciplinary programs. For example, one of the Core Courses for all the disciplines is *Informatics* for which we take the help of Computer Science Department.

Moreover the choice-based system proposes to offer courses in disciplines other than the one taken up by the student, depending on the aptitude and interest of the students. For example, a student doing Mathematics may have the opportunity to do a course in Journalism if s/he would like.

5. EXAMINATION REFORMS IMPLIMENTED:

The change over from marking system to grading system is the most notable change occurred in the mode of evaluation consequent to the the introduction of Choice Based Credit and Semester system. Special seminar is organized to equip the teachers for setting question papers and evaluating answers under the grading system. It was also decided to conduct mid-semester examinations at the college level to supplement continuous evaluation through class test, assignments, seminars and oral test.

1. The College

The College has been running an **Employment Training Centre** near the college. Last year it was shifted to Cheloor, a remote place where women were given training in stitching. This year the college supplied two Sewing Machines to the Employment Training Centre for Tribal Women run by the Adoration Sisters of Appapara as part of the Msgr Geroge Njaralakkat *Endowment for the Employment Training of Tribal Women*.

Murikkumtheri colony was adopted by the Commerce Department and various programs like giving tuition to the tribal students are organized by the Department of Commerce.

2. The National Service Scheme

Onam was celebrated with the tribal folk of the adopted Tribal Colony at Edappady village on 9 Aug 2009. Our Volunteers prepared *payasam* with the help of the community and many spontaneous programs were conducted in a mutually benefiting manner.

On the *Gandhi Jayanthi*, 25 NSS Volunteers participated in a *cleaning-drive* on the premises of the Mananthavady Munsiff/ Magistrate Court. The staff and Advocates of the Court also joined the volunteers. The Programme was inaugurated by the Hon'ble Munsiff/Magistrate of the Mananthavady Court. 15 other volunteers participated in a *Gandhi anusmarana* program held in the Gandhi Park. The remaining volunteers cleaned the campus and participated in the various cultural programs.

Our volunteers visited and spent time with the elders of the *Karuna Bhavan*, Old Age Home in Kartikkulam on 27 November.

The Special Camping Program of the Year was held in the Kannur University Teacher Education Centre in the Edavaka Panchayat from 18 – 24 December 2009. The camp turned out to be a memorable one with varied experiences that helped the campers to grow up as better human beings. The Campers built up a close relationship among themselves and with the local community. They returned home pledging to serve Society without looking for any personal benefit.

3. The Red Ribbon Club

The Forum of Blood Donors regularly offers its services to the District Hospital as and when the need arises. The NSS Program Officers and Volunteers coordinated the activities the Red Ribbon Club.

4.The Commerce Department runs the *Mytri Community Development Program* at the nearby Murukkumthery Tribal Colony, where students run regular tuition for school children. Onam and X'mas were celebrated involving the local community.

21. IMPROVEMENT IN THE LIBRARY SERVICES:

The Central Library has a handsome collection of around 11070 Books out of which around 2500 are bought during the current year. There are about 50 journals and magazines of which 3 are being subscribed from this year onwards. The internet facility provides e-journal facility also. Student Feedback demonstrates that they are impressed by the Reading Material available in the Central Library, even though there is a severe space-crunch. We have started issue of library books through bar-coded system. The free internet facility for all students is made available in the Library

The College accounts, the collection of fees, the disbursement of salary, and the accounts of the issue and collection of books in library etc., are done with the proper Management Information systems.

26. INCREASE IN THE INFRASTRUCTURAL FACILITIES:

Last year The *Building Committee* met and formulated mega plans for the Hostel cum Guest House and the extension of the Academic Block. On 30 August the Proposal for an International Hostel cum Guest House on the campus was forwarded to the UGC Office at Bangalore. The college also submitted detailed project plan for UGC assistance of IX plan. This year, after the interface with the UGC Committees we got both plans sanctioned.

27. TECHNOLOGY UPGRADATION:

Technology upgradation, hardware as well as software, is done regularly in the Computer Lab, Library, Office and in the Audio-visual Lab.

37. PLACEMENT SERVICES PROVIDED TO STUDENTS:

The Coaching Cell to impart training to the students of SC/ST and Minorities with the support of the U.G.C. has been functioning in our college since June 2009. In pursuance with the major activities of the last year, we have taken a few steps forward to impart the coaching to the needy students from June after the reopening of the college for the current academic year.

We conducted a meeting of the Advisory Board on June 10. We also invited other teachers and resource-persons to chalk out a comprehensive programme for the benefit of the students.

We supplied the written materials to the students who were appearing for the competitive examinations. We also provided books and CDs to the students from our own library, meant for the purpose substantiating the Coaching program.

From September 1 onwards we imparted coaching for the SBI Clerical Exam., which was held in the first week of November. Our Resource Persons gave specific training English, Arithmetic, Logical Reasoning,

Banking and Computer Science. The classes were arranged in the evening after the regular class hours and on Saturdays.

Resource Persons from various fields are brought to the Campus occasionally to train our students. Mr Rakesh coordinates the Coaching Program.

38. DEVELOPMENT PROGRAMME FOR NON TEACHING STAFF:

Orientation at the beginning of the academic year and training in different computer programmes were conducted for the non-teaching staff.

39. BEST PRACTICES OF THE INSTITUTION:

Ours is the only college in Kannur University that follows Parliamentary Mode of Election of College Union. This has ensured a violence-free, party-politics-free and strike-free campus. At the same time The Grievance Redressal Cell of the college functions very effectively so that any problems faced by students are immediately taken up.

Subscription to more than hundred English newspapers is found beneficial to the students. At present an average of four students get a newspaper and the habit of reading the newspaper, news presentation, newspaper quiz programmes etc. help in acquiring language skills and general knowledge.
