“This book is a good resource for nurses interested in helping themselves or others maintain a connection with the purpose of their work.”*Critical Care Nurse*. Compassion fatigue afflicts nurses working in all caring environments and has become a serious issue in health care institutions nationwide. This is the only book to specifically address this challenge and the related syndrome of burnout in nursing. Appendices include a list of medications, national stroke guidelines, and neuroscience terms.

Printed nursing books are primarily found in the Life Sciences Library in Jordan Hall, A304. Most new books and videos and all journals are online. Books and other media may be searched for in IUCAT.
