Urban Studies is the leading international peer-reviewed journal for urban scholarship. Since its inception in 1964, the journal has remained at the forefront of intellectual and policy debates on the city, and has hosted ground-breaking contributions from across the full range of social science disciplines. The Editors aim to maintain and extend the role of Urban Studies as the journal of choice for those working on the cutting edge of academic research about cities. Critical commentaries published by Urban Studies in recent years have covered topics such as urban resilience, the subprime crisis, gentrification and "smart urbanism"™.
