Produced by Curtis Weyant, JoAnn Greenwood, and the Online. Constitution of the united states; With. Notices of its principal framers. A special history of the origin and establishment of the Constitution of the United States has not yet found a place in our national literature. Many years ago, I formed the design of writing such a work, for the purpose of exhibiting the deep causes which at once rendered the Convention of 1787 inevitable, and controlled or directed its course and decisions; the mode in which its great work was accomplished; and the foundations on which our national liberty and prosperity were then deliberately settled by the statesmen. In the prosecution of this purpose I had, until death terminated his earthly interests, the encouragement and countenance of that illustrious person, whose relation to the Constitution of the United States, during the last forty years, has been not

Biography of the Constitution of U.S. 2/E. by. Louise Mitchell. A Biography of the Constitution of the United States: Its Origin, Formation, Adoption, Interpretation. ISBN. 0195019326 (ISBN13: 9780195019322). The Constitution of the United States is the supreme law of the United States of America. The Constitution, originally comprising seven articles, delineates the national frame of government. Its first three articles embody the doctrine of the separation of powers, whereby the federal government is divided into three branches: the legislative, consisting of the bicameral Congress (Article One); the executive, consisting of the president (Article Two); and the judicial, consisting of the Supreme Court
