Friars Impact Early Mend. by C.H. Lawrence. See Customer Reviews. C.H. Lawrence. *Medieval Monasticism: Forms of Religious Life in Western Europe in the Middle Ages* (3rd Edition). C.H. Lawrence. from: \$3.99. C.H. Lawrence's book *THE FRIARS* is a good summary of the Mendicant orders who emerged in the late 12th. and 13th. centuries. The book explains why the men and women in the newer Catholic orders emerged from the cloister to evangelize and minister to the secular world. Given the contributions of the Friars, good historians have expressed their respect to these men and women who emerged from the religious houses of the Friars. Read More.

0. The mendicant friars of the Franciscan and Dominican orders played a unique and important role in medieval society. In the early thirteenth century, the Church was being challenged by a confident new secular culture, associated with the growth of towns, the rise of literature and articulate laity, the development of new sciences and the creation of the first universities. The origins, growth and most importantly the impact of the mendicant movements upon the medieval world are the subject of this book. Lawrence shows that it was the mendicants' ministry above all else that, in meeting the spiritual and intellectual demands of the new age, preserved the loyalty of the great majority of western Christians to the established Church.
