Black consumers spent nearly \$4 billion on household products in 2013, which is up 11% from 2010. Despite lower household incomes, Blacks are much more likely to buy brand name household products. When it comes to household products, efficacy is more important than cost. Rather than risk buying a lower-quality less expensive brand, Black consumers will shop around for the best price on their favorite household products. They are also more likely than White consumers to buy a wide array of household cleaners, laundry products, scented products, and bleach. This report meets the following object he Household Products. Database is a consumer's guide that provides easy-to-understand information on the potential health effects of more than 2,000 ingredients contained in more than 14,000 common household products used inside and around the home. Information is also available for some commercial/institutional grade products available to the public. The Database allows scientists and consumers to find out about ingredients in brand-name products. It is designed to help answer questions like these: "What chemicals are contained in specific brands and in what percentage?" "Who manufactures a specific brand? How can the manufacturer be contacted?" "What are the potential health effects of the chemical ingredients in a specific brand? Consumer products companies throughout the world are waking up to a profound new finding: The best way brands can grow over the long term is to grow the number of buyers. That may sound obvious or even like circular reasoning, but the reality is that it's a big departure for consumer [...] (Penetration is defined as the percentage of households in a market buying a particular brand in a given year.) This finding emerged from recent Bain & Company analyses of the buying habits of nearly 100,000 shoppers across the globe, based on data collected by Kantar Worldpanel, and our experience working on more than 600 brand growth projects. They define a compelling picture of success to guide their salesforce.
